Geography, Earth and Environment Careers Fair

Wednesday 19th October 2016

The Geography, Earth and Environment Careers Fair is a great opportunity for you to find out about various graduate jobs, year in industry placements and internships. It will also showcase a number of opportunities within the University to help you improve your employability and gain insights into various career paths.

The fair is open to all students from the Faculty of Environment who would like to know more about career options in environmental and related industries. Representatives from small, medium and large organisations will be in attendance, ready to talk to you about their opportunities.

This is a fantastic chance for undergraduate and postgraduate students to find out what employers are looking for in today's competitive market place.
Please find details of all employer stands in the table on page 3.

Don't forget to tweet about the fair!

The LEAP team provides specialist knowledge in geotechnical & environmental investigation & design. They deliver award winning solutions for clients that are Leading edge, Efficient, Accurate & Punctual.

LEAP also collaborates with a range of chartered & technical specialist professionals, many of whom are leaders in their respective fields, all of whom have a breadth of knowledge and experience which allows Leap to deliver technically robust, cost efficient and sustainable solutions for the built environment.

W: www.lithosconsulting.co.uk **| Twitter: @**Lithos_Careers

Lithos Consulting can undertake site appraisals, investigations and risk assessments for any purpose from pre-acquisition due diligence to resolving ground-related problems that arise during the construction phase of a project.

We specialise in the assessment of ground-related issues associated with the redevelopment of brownfield land in order to enable Clients to obtain budget costs for the necessary site preparatory and remediation works, and to support the submission of a planning application to the local authority. We also design, supervise and verify the remediation activities necessary to render land suitable for redevelopment. Our clients include residential and commercial developers, landowners, local authorities, and banks. Lithos has built its business by providing clients with commercial, pragmatic, and robust advice. We are well regarded by, and have excellent working relations with, NHBC, Local Authorities and the Environment Agency.

W: www.pwc.com/uk/careers **| Twitter: @**PwC_UK_Careers

Your career is just that; yours. You choose it. You live it. You make it happen. To get the best from it, you need the best opportunities. That's why opportunities are at the heart of a career with us. And we're proud, based on the opportunity we offer, that students have voted us the number one Graduate Employer in The Times Top 100 Graduate Employers survey for the last thirteen years. All routes offer you the same deal. The opportunity to grow as an individual, to meet new people, and build lasting relationships that will stay with you for life.

So join PwC. We'll help you reach your full potential. Take the opportunity of a lifetime.

W: www.raw-group.com **|Twitter: @**TheRAWGroup

RAW Technology Limited (RAW) is a privately owned company with offices throughout the UK and Ireland. We are the market leader in Pollution Response in the UK and Ireland with the largest network of established regional offices, RAW delivers consistent, sustainable, value for money solutions using experienced staff and appropriate technologies.

Our capabilities extend to all aspects needed to assess and mitigate contamination risks on brownfield sites. Our Sustainable Remediation programmes consistently clean up soils and water on site, on time and on budget.Our expertise is based upon good science and engineering, combining a commitment to innovation with common sense.

W: www.soil-engineering.co.uk **|Twitter:** @soil_eng

Soil Engineering Geoservices is one of the UKs leading geotechnical contractors with a proven capability in all elements of ground investigation and ground stabilisation.
SEG has one of the largest in house resources of specialist drilling plant, rigs and field equipment in the UK and operates from a central head office, depot and laboratory in Leeds with regional offices in Coatbridge, Scotland and Camberley, Surrey.

Operating for over 5 decades, SEG have been involved in some of the most prestigious major civil engineering projects ever constructed in the UK. More recently we have been involved with projects such as Crossrail and Thames Waters Lee and Thames Tideway Tunnels, the A9 Improvements in Scotland and more locally NGTs Leeds Trollybus Scheme.
SEG are a truly national company providing our services throughout the British Isles.

W: www.wspgroup.com **|Twitter: @**WSP_PB_UK

We are a diverse group of individuals including engineers, scientists, technicians, consultants and academics. We work together to provide the most effective and sustainable solutions for our clients. Our core values support this, and create an environment where our people can flourish.

W: http://www.wyg.com/ **|Twitter:** @wyggroup

WYG is a global project management and technical consultancy with a difference. Our in-house team brings together over 1,500 specialists from a diverse set of disciplines. Our connections reach even further as we bring together a network of over 20,000 partners and associates across the globe. Together, we provide bespoke solutions, making our clients' ambitions possible.
Our people are designers, project managers, engineers, surveyors, town planners, environmental specialists and business service professionals. The breadth of our skills and knowledge allows us to provide a unique integrated approach to projects whatever their size, complexity or geography.

What does WYG do?
Our passion is creating and managing strategic assets by engaging with clients in the early stages of a project, and often continuing to advise them throughout its lifecycle.
Outside the UK, we have also become a leader in international development, exporting our knowledge and networks to undertake ambitious projects that make a positive impact on infrastructure, socio-economic growth and the environment.

W: www. www.ywt.org.uk **|Twitter:** @YorksWildlife

Yorkshire Wildlife Trust is a local charity working to protect and conserve Yorkshire's wild places and wildlife for all to enjoy.

We have more than 95 nature reserves which provide a much needed sanctuary for Yorkshire's wildlife. But we go further than that, working Yorkshire-wide to make sure our wild spaces are connected, giving wildlife freedom to move and flourish in an ever-changing world.
We want people to rediscover and reconnect with nature around them, whether you like an afternoon river walk or a picnic in the forest, bird watching, butterfly spotting or finding that elusive orchid.
As well as managing nature reserves and working with communities to create living landscapes across Yorkshire we work to protect our rich marine habitats too. From puffins and razorbills to sponges and dolphins we're working to create living seas through advocacy, partnership and practical conservation projects.
